

Secure the student journey.

Student data privacy, LMS and examination security, research IP protection, managed SOC and awareness for education, edtech and research.

Three questions every education leader should be able to answer

Who can reach our question banks and results?

Role reviews, integrity controls and monitoring decide whether an examination survives a determined insider or intruder.

If our ERP went dark in admissions week, what then?

Tested backups and manual playbooks turn a ransomware incident into a bad day instead of a lost term.

Do we know what our apps collect from children?

DPDP requires verifiable parental consent and bans tracking of children; SDKs and vendors must be mapped.

3rd

Most targeted industry worldwide (2024)

66%

Higher-education bodies hit by ransomware

~22 m

Accounts in one Indian edtech breach

6 hours

Incident reporting to CERT-In

Built for every institution and platform

University groups and deemed universities · school chains · coaching and test-prep · online learning and edtech platforms · examination bodies and testing agencies · research organisations and laboratories.

The rules that drive your security calendar

Instrument	Key cybersecurity expectations
CERT-In Directions · audit guidelines (2022, 2025)	6-hour reporting, 180-day logs; independent audits
DPDP Act and Rules · Public Examinations Act	Children's data and parental consent; criminal liability for exam leaks
UGC, AICTE, boards · SEBI LODR	Institutional expectations; quarterly disclosure for listed companies

Privacy, exams, research, SOC, awareness and platform testing

Student Data Privacy

DPDP gap assessment, consent and parental verification, data mapping, breach workflows.

LMS & Exam Security

LMS, portal, question bank, proctoring and result-system testing and controls.

Research IP Protection

Data classification, segmented labs, threat hunting, collaborator agreements.

24/7 Managed SOC

Campus, cloud and exam monitoring, surge coverage, 6-hour reporting.

Awareness & Drills

Phishing simulation, parent scam awareness, leak and ransomware exercises.

Edtech Platform Testing

Web, mobile, API and cloud testing; SDK privacy review; SOC 2 readiness.

Choose your starting point

Foundation

Campus and portal assessment, backup review, privacy quick assessment, phishing and fee-fraud awareness. For schools, colleges and coaching institutes.

Assurance

LMS, app and API testing, DPDP programme for children's data, annual audit, managed SOC. For universities, school chains and edtech platforms.

Continuous Resilience

Continuous testing and red teaming, exam-integrity and research-protection programme, SOC with hunting, Board and sponsor reporting. For examination bodies, research organisations and listed edtech.

Why Codec Networks

CERT-In empanelled

for information security auditing services, and empanelled with NICS for application audit services.

Certified

ISO 9001:2015, ISO/IEC 27001:2022 and ISO/IEC 20000-1:2018.

Regulation-mapped

Every finding mapped to CERT-In, DPDP, examination-integrity expectations, UGC and AICTE requirements and ISO/IEC 27001.

One connected partner

Testing, audits, SOC, forensics and privacy linked from finding to closure.

Book a scoping session

Share your institutions, platforms, examination systems and research programmes. We will propose a practical, calendar-aware assessment and assurance plan.
